

**ITER Japan Domestic Agency,
National Institutes for
Quantum Science and Technology**

A photograph of a child's play area featuring a large, colorful cardboard model of the ITER fusion reactor. The model is surrounded by various educational materials, including a periodic table of elements, a calendar for August 2017, and a book titled 'ITER'. The model itself is a complex, multi-colored structure with a central pink and white circular element. The background is a dark wooden surface.

How-to :

- ① Use a utility knife to cut along the cutting lines with the help of a ruler as a straight edge guide.
- ② Make sharp creases along the fold lines to make them easy to fold. Tip: use a dry ball pen
- ③ Fold all the mountain folds and valley folds.
- ④ Insert the bottom tab into the slit.
- ⑤ Slide the calendar into the Pop-Up ITER.

- Cutting line
- Mountain fold
- Valley fold

- Realization of the Ultimate Energy Source -
The ITER Project is an international research project aiming to create a sun on earth. ITER is being built and developed in Southern France, with the hope of gaining a new energy source for the future of mankind.
