JOB DETAIL

Ref. IO2053 - 11/28/2018

Construction Engineer CST-142

Main job Construction

Department CST / Construction Department

Division CST / Construction Management Division

Job Family Functional Officer - 2

**Application Deadline
(MM/DD/YYYY)** 01/10/2019

Grade P3

Direct employment Not required

Purpose To support both the Construction Department (CST) and the Construction Management Division (CMG) on a project management level, dealing with tasks such as studies and reporting, contract management and resources management;
To act as management support for the Construction Management-as-Agent (CMA) contract.

Main duties / Responsibilities

- Follows-up the ITER Organization (IO)'s requirements and in particular, prepares reports and dashboards to demonstrate compliance between contractual requirements and produced deliverables;
- Monitors the CMA's activities in terms of preparing analyses of IO's and key stakeholders' satisfaction, Risks and Opportunities, cost control and global performance including Key Performance Indicators which contribute to senior management's decision making;
- Prepares contractual documentation and general communication related to the CMA contract and replies to the CMA's correspondence, change requests and alerts;
- Prepares CMA contract amendments in collaboration with Project Control Office (PCO), Procurement and Contracts Division (PCD), Finance and Budget Division (FBD);
- Anticipates and monitors the CMA resource needs as per the construction schedule by liaising closely with the Project Control Managers and Leaders of the IO Construction Teams (CTs) and prepares the associated documentation for the CMA Contract Manager;
- Prepares the main IO/CMA management coordination meetings and follows up any associated action implementation;
- Coordinates the preparation of independent reviews on Assembly and Installation and regularly reports on the progress and any issues to the line management in addition to following up on the implementation of the defined actions;
- Supports senior management duties such as audit, analyses or document management to manage ITER construction project schedule and cost in respect with existing Management Quality Program (MQP), safety rules and regulations;
- May be requested to be part of any of the project/construction teams and to perform other duties;
- May be required to work outside normal working hours, including nights, weekends and public holidays;
- Maintains a strong commitment to the implementation and perpetuation of the ITER Safety Program, ITER Values (Trust; Loyalty; Integrity; Excellence; Team mind set; Diversity and Inclusiveness) and Code of Conduct.

Measures of effectiveness

- Reports to the Head of Construction Management Division under the supervision of the CMA Contract Manager;
- In response to requests from the Director-General and/or CST Head, or proactively, informs the DG/Site Construction Director of any important and urgent issues that cannot be handled by the concerned line management and may jeopardize the achievement of the Project's objectives.
- Performs efficiently CMA contract related tasks as mentioned above;
- Works closely and coordinates effectively with all stakeholders within the ITER Project;
- Provides efficient support regarding any audit preparation and recommendations implementation;
- Reviews and provides documents that are compliant with MQP and safety regulation to support the project schedule;
- Develops efficient collaboration with CMG and with Project Control Office (PCO), Procurement and Contracts Division (PCD), Finance and Budget Division (FBD).
